Hoppa fram 5 minuter i taget. Dra streck.

Du får bara gå till klockorna som är närmast runt omkring.

The image displays a 7x6 grid of 42 analog clocks. The first clock in the top-left corner is highlighted with a blue square and a red arrow pointing to it. A grey line connects this clock to the second clock in the second row. A red arrow points to the last clock in the bottom-right corner. Each clock shows a different time, and the task is to jump forward 5 minutes in increments.
